#### INTRODUCTION:

The mystique and allure of the Amazon beckons those who are fascinated with the natural world. The Peruvian Amazon is home to the most biologically diverse wildlife on earth with 293 species of mammals, over 3,000 species of colorful, tropical birds and butterflies, a myriad of insects, reptiles and amphibians, and waters rich with an abundance of fish and aquatic wonders such as the pink river dolphin. Over 25,000 plant species have been identified in Amazonia and it is hypothesized at least as many remain yet undiscovered.

This voyage takes you deep into the heart of the world's greatest wilderness through an ever-changing vista of lush tropical rainforest. Our elegant riverboat, the **32 passenger M/V Aria**, plies these waters with comfort and grace, affording superb wildlife viewing from her observation deck. The 16 air-conditioned modern suites feature panoramic windows, private baths, and in-suite sitting areas. Following daily excursions, you return to gourmet meals paired with vintage South American wines. Some nights, after dinner, you have the opportunity to partake in night expeditions to experience the nocturnal wildlife inhabiting the region. You begin the journey in Iquitos after a spectacular flight over the Andes from Lima. Traveling to the village of Nauta and navigating upriver on the mighty Amazon, you explore several of its tributaries on the way to **Pacaya-Samiria National Reserve**. Our expert naturalist guides accompany you on daily excursions aboard small, motorized boats or on trails through the rainforest. The guides' ability to spot wildlife is uncanny, though by the end of your journey you'll be astounded at your own prowess. Visiting *ribereños* (river dwellers) in their villages, experiencing sustainable resource management projects, meeting local subsistence farmers, going fishing for piranha, and seeking out rare plants and animals such as the world's largest aquatic plant, the giant water lily are some of the incredible adventures on this trip. Following your expedition, return to Iquitos for a brief city tour, then fly back to Lima and connect home.

### THE M/V ARIA:

As of 2011, the 32-passenger [M/V Aria](#) began to offer an unrivaled premier luxury cruising experience in Peru's remote Pacaya-Samiria National Reserve. The upgraded 147-foot long M/V Aria's fine interiors, furniture, and finishes have been entirely custom-crafted to provide guests the ultimate in onboard comfort while at the same time highlighting the jaw-dropping scenery of the Peruvian Amazon. Peruvian interior designer Jordi Puig was responsible for outfitting the elegant 3-deck M/V Aria along with the comfortable embarkation lounge in Nauta. The vessel features floor-to-ceiling windows on all 16 guest suites measuring 250 sq ft and furnished with inviting hardwood interiors, high thread count sheets, AC and private bathrooms. The second deck suites cost a little more, but you'll benefit from a more expansive river views, and a quieter cruise experience further from launch area for the excursion skiffs (located on first deck). The second deck also houses the boutique and dining room.

A fully air-conditioned top deck lounge with a contemporary observation indoor lounge & bar; an exercise room with elliptical, treadmill, and spinning machines; a massage room, outdoor lounge, and rooftop Jacuzzi plus redesigned excursion skiffs with larger seats. Celebrity chef Pedro Schiaffino's fine dining menus highlight regional dishes and local ingredients enjoyed onboard. The 26 crew-member vessel including a paramedic and 4 bilingual naturalist guides, will run 8 and 5-day cruise itinerary departures to provide more options for travelers. The M/V Aria will venture to a diversity of areas of the Pacaya-Samiria Reserve offering exceptional wildlife viewing capabilities.

**Note:** due to the remoteness of the Peruvian Amazon, there is no mobile and wifi coverage on the ship once away from Iquitos. For emergency contact with family or work back home, Aria has a satellite phone for an extra charge paid onboard.

### EXCURSION BOATS DURING YOUR VOYAGE:

Excursions during the Amazon Voyage are aboard four 8-passenger open-air, comfortable skiffs with padded seats along each side and spacious standing room, giving passengers ample room for wildlife viewing and photography. These stable boats, equipped with life preservers and constant radio communication with the M/V Aria, are powered by low-emission four-stroke outboard motors and driven by an experienced captain; naturalists/guides accompany each excursion. Drinks and snacks are provided, as are packed lunches and breakfasts for some of the daily expeditions. Passengers enter the skiffs from a stable platform on the sides of the riverboat.

### OPTIONAL CUSCO/MACHU PICCHU EXTENSION (4 days / 3 nights):

Travelers with extra time may want to add a visit one of the one of the "Seven Wonders of the World," Machu Picchu. This extension can follow the Amazon cruise (as outlined below) or it can also be added before the cruise. Please,

## Peru: Amazon Cruise

contact a Southwind Travel Consultant to design your private extension according to your travel dates.

### OPTIONAL TRIP EXTENSIONS:

Travelers with additional vacation time may wish to extend their trip to Lake Titicaca, Northern Peru, Arequipa & Colca Canyon, the Paracas Reserve, Nazca Lines or the Galápagos Islands. Your Amazon Cruise will combine perfectly with our *World of the Incas* tour. The cruise can also be used as a component of a customized adventure, which can be designed and quoted separately. **All extensions require a minimum of 2 participants** and are subject to space availability. To view all the extensions on our website, click on '[Extend Your Trip](#)'.

**WEATHER:** The M/V Aria cruises the Amazon every week of the year, giving adventurers the option of experiencing this captivating ecosystem during either the Dry Season (June-November) or the Flooded Season (December-May). Both seasons offer rich rewards, fabulous sites, amazing opportunities to view plant and animal life, along with hot weather and some rainy days. Our recommendation though, is to travel from April to December to avoid the heaviest rains from January through March. The Amazon basin receives an average of 12 feet of rain per year, adding up to over 200 rainy days, which means there will be rain even in the dry season. Flooded season is slightly cooler (temperatures average in the 80's to 90's year-round, with nighttime lows in the 70's), but the main difference is that the river level is 23 feet higher. This means that most rivers, creeks and lakes are navigable, putting us closer to the jungle canopy where monkeys play and birds roost. The flip side is walking and hiking are more limited, and there will be more mosquitoes. The dry season is a little hotter (about 98°F) while still receiving some days of heavy rains. The river level is lower, giving more access to hiking trails with fewer mosquitoes, but some of the creeks and lakes visited during the flooded season are inaccessible.

**TRAVEL INSURANCE:** We strongly recommend purchasing coverage to protect your trip investment. Travel insurance is important in case of unexpected events prior to departure causing the need to cancel or change your dates. Weather, natural events, medical reason, quarantine, local strikes, personal injury/illness (for you, your traveling companion or family members at home), could require itinerary interruption or changes. Missed connections, delayed arrival, lost/delayed baggage or the need for medical attention or evacuation are also reasons why coverage is important. Southwind recommends **Travel Insured International** which offers coverage options at a good value. If you, your traveling companion or a family member has a pre-existing medical condition, you can still receive coverage if a recurrence of the condition forces you to cancel your trip, but you do need to purchase a plan **within 21 days of your deposit**. Southwind can provide eQuote for insurance to review upon receipt of your deposit and Trip Reservation eForm.

[Learn more about coverage offered by Travel Insured International](#)

**NEXT STEPS:** Please contact Southwind to speak with a personal Travel Advisor to help fine tune your travel plans and to receive a custom itinerary with a land cost quote based on your travel dates. You can reach us by email at [info@southwindadventures.com](mailto:info@southwindadventures.com), by phone at 800-377-9463 or by text to 303-972-0701.

Reservations can be made up to 60 days before departure, provided tour services and hotels are available. Due to the popularity of the Amazon cruises and the limited number of cabins, we recommend making reservations at least 4-5 months in advance for non-holiday or about 1 year prior for holiday departures. Once your trip is confirmed to operate, you will receive pre-departure planning materials, flight booking assistance and advice to help prepare for your exciting vacation on the Amazon.
